

Meet Montessori for Adolescents

Montessori for Adolescents is an organization that helps communities open Montessori environments for students 12–18 years old. This work is for anyone looking to create an environment where ***adolescents can thrive***.

We offer ***three levels of consulting support*** and ***practical resources*** to help with planning, structure, and logistics: from calls and resources whenever needed, to comprehensive months-long side-by-side planning.

Our work holds true to authentic Montessori with the additional weaving of modern neuroscience and wellness. All of our team members carry the **AMI 12–18 Diploma** and have developed adolescent programs globally, from France to Bali.

Fill out the online form [here](#) to schedule your complimentary discovery call.
